A framework of bones with muscles attached creates the outside covering of our being that moves us through the world. The core muscle group wraps like a girdle around the midsection of the body. These muscles join and support both the upper and lower parts of our body while creating and supporting alignment of the spine. Breath, balance, flexibility and strength are all necessary components for the wellness of our mind and body. Yoga, when practiced routinely, offers to each of us opportunities to connect with ourselves more deeply to a better understanding of who we are. Stretch Yoga pays specific attention to breath, balance and flexibility and offers movement for your body without strenuous activity. Instructor: Susan King, LMBT. Punch Pass: \$42.00 for 8 classes.
